

SUN DIALING

From the Nursing Department

We are pleased to inform you about podiatry services we will be offering our residents. Aggeus Healthcare has a program that offers an on-site service in nursing homes and assisted living facilities. The doctors are Board Certified and highly skilled. Their objective is to maintain the highest standards of care in achieving the best possible outcome for each resident. The services include full and complete exams that include treatment of ingrown and infected nails, painful calluses, gait or ambulating issues, recommendations and fitting of diabetic shoes and other orthotic devices as well as education on proper foot care. They offer a complete Diabetic Program that includes: diabetic shoes for qualified recipients at no additional cost and wound management. We are excited to get these services started for our residents and would like to start April 1, 2010. If you are a Power of Attorney for a resident of Sun Dial Manor or the Johnson Center you will be receiving information about these services. If you have any questions, please call Connie at (605)492-3615.

Valerie Blair, RN - Employee Of The Year
was selected by Sun Dial Employees at the
December Christmas Party. Val, who is
one of our night nurses, moved here from
Texas to be near her daughter and
grandchildren. Originally from Groton she
now lives in Bristol. She is a graduate of St.
John School of Nursing in Huron.
