Winter 2009

The South Dakota Health Care Association (SDHCA) recently announced in their Newsletter that the Johnson Center at Sun Dial Manor, Bristol is the November Facility of the Month. The following is an excerpt from the article.

“The SDHCA Facility of the Month for November is the Johnson Center at Sun Dial Manor, where Peggy Pearson is the Administrator. The facility is located in Bristol, population 475 people, and has 50 employees in the entire facility with 5 of those working in the Johnson Center. The Johnson Center has 16 assisted living units and the entire facility has a total annual payroll of \$1.3 million overall.

Some of the services offered include three delicious meals a day, along with snacks, housekeeping, maintenance and laundry.

They also provide medication administration, restorative therapy, transportation to medical appointments at no extra charge, barber/beautician services, activities, outings, and whirlpool baths.

The facility is currently looking at the possibility of podiatry services and out-patient therapy.

The Johnson Center is located in a beautiful setting in the lakes region of northeastern South Dakota. Winding around the facility is a newly landscaped walking trail bordered with numerous types of flowers and a variety of roses. The gazebo and patios afford a great rest stop as residents make their way along the trail. Known for its warm and friendly atmosphere, The Johnson Center stands out as a “great place to call home!”
